# WHO WE ARE?

MPL Legal Academy; A fully dedicated, quality proved legal training academy specialized in tailoring practical legal courses for law practitioners, corporate teams, start-ups, public sector institutions, and all professionals seeking a legal insight to complement their careers' portfolio.

In 2015, we established MPL legal academy to provide Egyptian Law students with the required tools, skills, practical knowledge to bridge the gap from theory to practice. In 2019, we set up MPL Corporate Training Department by providing custom-designed training. Today, MPL helps professionals and organizations from various fields to acquire the legal insight they need.

We are firm believers in social responsibility. Our programs offer annual scholarships, fees-free monthly workshops, and mentorship sessions for law students and practitioners.

# CORE VALUES

- PROFESSIONALISM
- INTEGRITY
- CUSTOMER CENTRIC
- TRUST

## VISION

Our vision is to build up a generation of market leaders from all fields with solid legal knowledge that fulfils the efficiency and legal practicality needed by modern businesses, from small start-ups to large enterprises

## MISSION

MPL Legal academy provides training that yields results by focusing on the instructors' compatibility with our programs, the quality of the surrounding tutoring atmosphere, and the development of competencies

# WHY MPL?

Extensive Experience (MPL is distinguished by its work with more than 12000 learner and more than 50 legal departments in well-established institutions)

## ◆ Practical and Career-Ready Education

MPL equips every learner with the essential skills and knowledge needed to become a competent, market-ready legal professional—fully prepared to meet the demands of their chosen legal field.

## ◆ Customer Satisfaction

MPL has earned an outstanding satisfaction rate from both individual learners and corporate clients, reflecting the quality and impact of our training programs across the board.

## ◆ Credibility

At MPL, our greatest value lies in delivering an educational experience that truly matters in the real world. Our courses don't just end with a certificate—they provide you with a credential that carries real weight, helping you stand out and make a meaningful impact in your professional environment.

## ◆ Affordability

At MPL, we believe that quality legal education should be accessible to all. That's why we offer our training programs at competitive and affordable rates. We are also committed to inclusivity by offering select programs free of charge—both online and in person—so that financial constraints never become a barrier to learning or career advancement.

# Our Courses

## ◆ TOLES (Test of Legal English Skills)

is a globally recognized legal English training and examination program designed to prepare legal professionals for the language demands of international commercial law. It consists of structured learning materials and three progressive levels of exams, each building toward the standard of legal English required by leading international law firms, corporate legal departments, and top-tier legal translators.

The program focuses on developing advanced legal drafting, negotiation, and commercial awareness—skills most valued by employers in the global legal market. TOLES has been created with the input of experienced commercial lawyers and is supported by the International Division of the Law Society of England and Wales, offering a strong foundation for success in international legal careers.

## ◆ Contracts Drafting

This training program focuses on teaching you how to draft key types of commercial contracts, including lease, franchise, SPA, agency, and distribution agreements. You'll learn how to structure each section and reflect your client's interests clearly and professionally. The course includes practical assignments to ensure you can confidently draft well-written, effective contract clauses.

### ◆ Intellectual Property Rights (IP)

This course provides practical knowledge on intellectual property rights, including how to register patents and trademarks, protect trade secrets and copyrights, and become a specialized IP lawyer. It also covers the legal rights of inventors and brand owners, contract drafting for IP protection, and the procedures for safeguarding IP locally and internationally.

### ◆ Non-Banking Financial Institutions course (NBFIs)

This specialized course explores factoring as a critical non-banking financial solution that empowers businesses by enhancing working capital and accelerating financial cycles. It is designed for professionals across financial institutions—including banks, non-banking financial companies (NBFCs), and financial service providers—who are engaged in business development, risk assessment, credit management, or legal compliance.

Through a practical and legal lens, participants will gain the skills to effectively structure, assess, and manage factoring transactions. The program emphasizes both operational execution and regulatory awareness, equipping attendees to drive financial growth and strengthen their institutions' competitive edge in the evolving market landscape.

#### ◆ Financial leasing/Factoring /Micro-finance/Mortgage

This training program covers the key legal aspects of finance leasing, a growing alternative to traditional loans used by major financial institutions. It highlights the legal developments supporting finance lease companies and the practical challenges professionals may face. The course is ideal for those working in or entering the non-banking finance sector

#### ◆ International Trade/ Investment Law

This course introduces lawyers to the core concepts and principles of International Investment Law (IIL), helping them expand their ability to serve both local and international clients. It also explores how these principles are applied in practice by investment arbitration tribunals. Ideal for lawyers seeking to broaden their expertise and client base in global investment matters

## ◆ Corporate law

This training program equips participants with the legal and practical expertise to manage the full lifecycle of company incorporation and restructuring in Egypt. It covers the establishment of various business entities, managing general assemblies, board resolutions, and handling corporate changes such as mergers, acquisitions, and liquidation. The course is based on a detailed study of Laws No. 17 of 1999, No. 159 of 1981, and the Investment Law No. 72 of 2017, ensuring a solid legal foundation for corporate legal practice.

### **Advanced Corporate Law:**

This course offers a practical and legal overview of Shareholders Agreements, dispute settlement mechanisms in investment contexts, and key aspects of Egypt's Investment Law. Participants will learn about the structure, purpose, and enforceability of shareholders agreements, as well as methods for resolving disputes between shareholders, investors, and government entities. The program also covers different investment regimes and the guarantees and incentives provided to investors

## ◆ Business Law Essentials (BLE) ◆

This comprehensive program is designed to equip aspiring paralegals with the legal and practical knowledge required to support corporate legal teams effectively. The course begins with an in-depth exploration of corporate governance, covering company types, incorporation procedures, mergers and acquisitions, liquidation, and essential principles of corporate compliance, intellectual property, and data protection.

Participants will then advance to contract drafting essentials, learning the structure and components of agreements, including performance clauses, remedies, confidentiality, dispute resolution, and pre-contractual documents, with hands-on drafting and review exercises.

The program also includes a module on employment matters, offering a foundational understanding of Egyptian labor law and employment agreement types. It concludes with a section on fundraising and investment, focusing on convertible notes (SAFE vs. KISS) and their legal treatment under Egyptian law.

Exams are conducted to assess knowledge across key sections, and the program ends with a closing ceremony and internship opportunity announcement, providing a practical bridge into the legal field.

### ◆ Capital Market in Practice

This training program offers a comprehensive overview of the capital market in Egypt, focusing on the legal and regulatory framework governing securities companies, stock exchange operations, and capital market crimes. Participants will gain practical knowledge on company incorporation under Capital Market Law, the listing process on both the Egyptian Exchange and Nile Stock Exchange, and the roles of the Financial Regulatory Authority (FRA) and the Exchange's Board of Directors.

Through detailed case studies and legal analysis, the course also explores the most common stock market offenses, the limitations of arbitration in such cases, and the role of the Arbitration Center under Law No. 10 of 2009. By the end of the program, participants will be equipped to navigate regulatory procedures, apply corporate governance principles, and handle capital market investigations effectively.

### ◆ Legal Translation

This advanced legal training program is designed to enhance the skills of legal professionals and translators in bilingual legal drafting and translation between Arabic and English. It focuses on the principles of legal language, contract construction, and accurate translation techniques through a hands-on, practice-based approach. Participants will gain deep insights into the canons of legal drafting, the linguistic framework of legal texts, and the translation of complex documents such as contracts, court rulings, and litigation instruments. Special emphasis is placed on achieving equal authenticity between both languages, avoiding legal loopholes, and mastering terminology and formatting in various legal contexts, including FIDIC contracts and Egyptian legal procedures.

### ◆ **Banking Lawyer**

This program provides essential legal knowledge in banking operations, contracts, and compliance. It is tailored for legal professionals and bank counsels seeking practical skills in handling banking transactions and managing legal risks. The course combines theory with real-world applications for effective learning.

### ◆ **Legal Affairs**

This course is designed to equip professionals with the essential legal knowledge and practical skills required to manage corporate legal matters effectively. It covers key topics such as contract review, company law, regulatory compliance, labor law, dispute resolution, and communication with government bodies. The course is ideal for legal officers, in-house counsels, and managers who deal with legal documents or corporate obligations, ensuring they can navigate legal risks and support business operations confidently.

#### AGENDA:

- Factoring from legal perspective.
- How Does It Work.
- Factoring Type and structure.
- Receivables and Sale Terms.

## ◆ Paralegal

This course is designed to equip paralegals with a business-oriented mindset while emphasizing their core responsibilities, essential skills, and expected deliverables. It provides practical insights into the paralegal's role within legal teams, helping them contribute more effectively to legal and corporate operations.

## ◆ Cross border

This comprehensive course is designed to equip legal professionals with practical knowledge and skills in key areas of UAE law. It begins with legal research techniques tailored to UAE civil, labor, and rental disputes, including hands-on training in drafting legal memos. The program then explores the fundamentals of UAE Civil Transactions Law, focusing on contract principles and common civil cases.

Participants will gain in-depth understanding of litigation procedures before Dubai Courts, from case management to enforcement and dealing with court systems. The course also covers UAE Labor Law, addressing employment types, worker rights, terminations, and dispute handling.

In the section on Rental Law, the course explains key regulations in Dubai and Abu Dhabi, eviction grounds, and practical procedures for rental disputes. A dedicated module on Contract Drafting teaches the structure, legal terms, amendments, and dispute resolution methods. Finally, the program concludes with UAE Company Law, offering insight into types of companies, shareholder rights, governance, commercial dealings, mergers, acquisitions, and restructuring.

This course is ideal for legal consultants, in-house lawyers, and aspiring legal professionals working in or with the UAE legal system.

### ◆ Sports law

This Sports Law course equips you for legal roles in sports clubs, federations, law firms, and arbitration centers. It also prepares you to become a licensed players' agent. The program offers diverse career opportunities within the legal side of the sports industry

### ◆ Oil & Gas

This course equips participants with the legal and practical skills to draft and negotiate oil and gas contracts. It covers key areas such as contract structure, risk allocation, compliance, and dispute resolution. Ideal for those working in or entering the energy sector.

### ◆ International Arbitration

Every lawyer today needs a solid understanding of arbitration, especially as cross-border transactions become more common. Arbitration is the preferred method for resolving international disputes, and lawyers must be able to assess and draft effective arbitration clauses. Even corporate counsels in Egypt are often required to handle arbitration matters, making it an essential skill in the legal field.

### ◆ Professional Corporate Lawyer – PCLC

This program is designed to prepare a new generation of lawyers equipped with practical experience in both corporate law and litigation to meet the demands of the job market. It is ideal for those seeking careers as corporate lawyers in banks, law firms, or as in-house counsel in companies, while also strengthening their legal background in litigation. The program includes legal English training, professional skills such as bilingual contract drafting (Arabic/English), corporate law, intellectual property, and more. It also covers litigation fields including criminal, civil, family, and legal affairs. Additionally, it develops key personal skills such as legal research, all under the guidance of senior lawyers from top international law firms in Egypt and judges from various judicial disciplines.

### ◆ Law in Practice

This program aims to prepare a new generation of lawyers equipped with the practical experience and essential skills required to work in the corporate legal field. It covers the linguistic aspect through the study of legal English, alongside the legal aspect with a focus on contract drafting in both Arabic and English, as well as corporate law. The program is designed to build a solid foundation for participants to pursue careers in law firms or as in-house legal counsel in companies.

### ◆ Legal English

This training program is designed to strengthen your ability to operate effectively in legal contexts by enhancing both your legal English language skills and your understanding of key legal terminology. It combines practical exercises, presentations, and focused instruction on legal vocabulary, phrasing, and writing conventions used across various branches of law such as commercial, corporate, and arbitration.

# Instructors

At MPL, we have a diverse team of 50+ legal instructors, each with unique backgrounds and expertise. They undergo rigorous assessments to ensure high-quality training delivery. Our trainers consistently receive over 90% ratings for their knowledge and commitment to sharing it.
